U. S. PUBLIC LAND SURVEY MONUMENT RECORD

A-E 7.08(3)(a) Identity of corner: Southeast Corner Section 32, Township 38 North, Range 15 East of the Fourth Principal Meridian, Town of Fence, Florence County, Wisconsin

Horizontal nail, set in SE side. New Witness Object sign, set.

SIGNATURE

WISCRS - FOREST COUNTY N: 626,113.141 USft (XXX,XXX.XXX) E: 904,778.055 USft (XXX,XXX.XXX) Datum: NAD83 (2011) **GNSS Method RTK GNSS Control WISCORS VRS**

The coordinate value shown has been verified by the average of two or more GPS observations at a markedly different time. Coordinates shown in parenthesis are previously published values.

Original Surveyor: Artemas Curtis - September 1857 to October 1857 Tamarac 12 - N 89°30' W, 612 Links, Tamarac 10 - S 84°10' W, 605 Links

See previous U.S.Public Land Survey Monument Record - A-9 - March 26, 1985 - Surveyor 1107 - William B. Cochrane - THENCE:

May 15, 2024 - In performing the 2024 - Forest County - "PLSS Corner Remonumentation and GPS Services" project, I found a 2.25"diameter galvanized iron pipe with a 2.9" diameter stamped brass cap. The monument is in a black spruce swamp, and flush with grade. I did not find any of Cochran'e bearing trees. I established 4 new reference monuments as shown below.

A-E 7.08(3)(c)(d) Plan view of corner with references to at least 4 witness monuments.

New B.T. - 2" Black Spruce Horizontal nail, set in east side. New Witness Object sign, set.

are referenced to the: Wisconsin County Coordinate Reference System, FOREST County Zone All other bearings are magnetic.

Bearings listed to the nearest second

New B.T. - 2" Black Spruce Horizontal nail, set in south side. New Witness Object sign, set.

Horizontal nail, set in east side. New Witness Object sign, set.

LEGEND

nument sizes = outside diameter measurements.

This Corner

Steel sign post, found ±.5 foot NW of Corner

Galvanized nail, set or nail found as shown

A-E 7.08(3)(e) 1857 Surveyor set a post, 1985 Surveyor found a 2" inside diameter galvanized iron pipe, with a brass cap stamped to identify corner. I found a 2.25" diameter galvanized iron pipe with a 2.9" diameter stamped brass cap in 2024.

A-E 7.08(3)(f) I accept this monument in good faith as a FOUND PERPETUATED LOCATION of the corner. A-E 7.08(3)(g)(h) This corner was not determined through lost-corner-proportionate methods.

A-E 7.08(3)(i) I, Jeffrey L. DeMuth, Professional Land Surveyor No. S-2656, hereby certify that the corner

location on this record was determined by me or under my direction and control, and that this U.S. Public Land Survey Monument Record is correct and co nplets/to the best of my knowledge, and belief.

O = Corner monument restored.	Ву			.Deputy	

(e) Describe any material discrepancy between the location of the corner as restored or reestablished and the location of that corner as previously restored or reestablished by distance and direction. Show the discrepancy on the plan view drawing under (d), above. Show the distances between the corner as previously restored or reestablished and (1) the corner as restored or reestablished, and (2) to at least 2 of the witness monuments shown on the drawing in (d), above.

See drawing below.

(f) Was the corner restored through acceptance of (1) an obliterated evidence location, or, (2) a found perpetuated location?

Restored through acceptance of a found perpetuated location.

(g&h) Was the corner reestablished through lost corner proportionate methods? If so, show the method, including the directions and distances to other public land survey corners used as evidence or used for proportioning in determining the corner location?

(i) i. William B. Cochrane
(type or print name) certify that the corner location shown on this record was determined by me or under my direction and control and that this U.S. Public Land Survey Monument Record is correct and complete to the best of my knowledge and belief.

Villiam B. Cochrane March 26, 1985
